Join The Anglo Solar Family

Anglo Solar carefully selects exclusive local distributors, wholesalers and solar installers to be local representatives. Our partners enjoy exclusive access to special pricing, sales leads and marketing resources. Unrivalled service and support is provided by our team of experts based in London.

Why wait? Become part of the Anglo Solar family today and join our expanding network of global distributors and installers.

WHO ARE WE?

- Anglo Solar is an open and approachable British company based near London.
- We're always delighted to field enquiries from potential partners and distributors worldwide.
- Whether you have specific technical questions regarding our solar PV modules or want to discuss the benefits of working with us in more detail, our team is ready for your call.
- Anglo Solar is a solar brand owned by Global PV Sales Ltd.

WHY CHOOSE ANGLO SOLAR?

- Anglo Solar was established to deliver high quality solar panels at affordable prices, but with quality standards, warranties and service levels normally associated with reputable British companies.
- Anglo Solar PV modules are produced in Europe and China using the latest solar technology and high quality materials backed-up with a 30 year British warranty.
- Anglo Solar technology includes PERC cells, Bi-facial and half-cell modules.
- Anglo Solar ships panels all over the world using our low cost delivery network.

SUPERIOR PRODUCTS, SECURE WARRANTY

Anglo Solar supplies superior, high quality monocrystalline and polycrystalline solar photovoltaic (PV) modules to distributors worldwide. Our modules' peak output ranges from 370w to 700w. We supply the very latest in solar technology.

We also supply new technology including PERC cells, Half Cell and Bifacial modules.

Every module is salt spray, wind, load and ammonia tested, as well as being certified by TUV. Design, research, quality control and testing is carried out by our in-house design team.

A 12 year product warranty as well as a 30 year performance warranty are guaranteed with every module. 90% of output is covered by warranty for the first 10 years, followed by 80% of output from 10 to 30 years. This phenomenal warranty is backed by a private, financially secure British firm.

BECOME AN ANGLO SOLAR DISTRIBUTOR

**Exclusive Distribution Rights Available In Your Country Or Territory.
Free Sales Leads!**

Anglo Solar is always seeking to develop profitable partnerships with exclusive local distributors, solar installers and wholesalers across the globe. We need solar panel distributors and solar installers who can stock our panels and supply them to other local solar installers, businesses, homeowners, developers and government projects.

THE BENEFITS OF BEING A DISTRIBUTOR INCLUDE:

- Exclusively represent our quality solar brand in your country or territory.
- Promote our brands with confidence, knowing that customers can only buy from you.
- Exclusivity provides an edge over your competitors that other international solar brands simply can't offer.
- Benefit from one of the longest and most secure panel British backed warranties available in the industry.
- All sales leads received by Anglo Solar for your area will be directed straight to your business, with our wholehearted recommendation.
- Access to professional, high quality marketing materials, presentations, product updates and new innovations.

Secure Exclusive Local Distribution Rights With Your First Order

To qualify as an exclusive local **Anglo Solar** distributor, you will need to order stock. Usually a stock purchase of a 20ft container of panels (260 - 360 solar panels) will be required to secure the rights to become an exclusive local distributor. You will then be sent all the local sales leads we receive for your territory.

HOW TO APPLY

Apply to be an exclusive Anglo Solar distributor or approved installer on our website www.anglosolar.com or email info@anglosolar.com
